Success

ONE of the greatest ambitions of every human being is to ascend the ladder of success. Some people expect to get there merely by good luck. Although this may have a bearing on one's progress, it should not be given much dependence. As you go along through life do you ever stop to consider how some men, and women as well, have won the positions which they hold? Some started in humble positions and worked and worked persistently, overcoming many handicaps till they had reached their destiny. It took them many years, but they had the courage and perseverance that brought success. There is no necessity for being a mere cog; we should aim higher than that. Get above the crowd where you will stand out, where people can say, "There is a man whom I admire, because he was determined to make something out of himself and he did."

The road to the top is not a smooth one. It is rocky, and before you reach the summit you will receive many bumps, but these should not worry you. Don't give up; there is always an opportunity and good things come to those who work. We should not be like the straw on the ocean that drifts aimlessly. There should be an object toward which we should direct our efforts. There are sacrifices to make, but when you win you will enjoy life and laugh at the ones who made fun of you when you strove so diligently. We should always be vigilant and on the alert for opportunities. Loyalty to co-workers, cooperation, bravery, cheerfulness, unselfishness, service, all will aid you to get there. There is no need of being a braggart or presumptuous, because neither will help you. Always remember there is room for the good ones, and it should be our utmost duty to join that group, no matter what hinders our progress to the goal of success. "If at first you don't succeed, try, try again."

New Jersey Law School Teaching Fellowship

At its annual meeting in January, 1926, the New Jersey Law School created the New Jersey Law School Teaching fellowship with an annual income of $1,200.00 to the holder. The terms require that the candidate shall be a Bachelor of Arts, a graduate of a law school and a student whom the committee considers as giving promise of becoming a legal scholar and a teacher. The recipient will be expected to do some teaching during the year he holds the scholarship.

After considering the applicants from New Jersey Law School and from other law schools in the country, it was decided to award the fellowship for the year of 1927 to Mr. Reginald Charles Stewart Parnell, of Newark, N. J. Mr. Parnell was born in St. Johns, Newfoundland, and prepared at Bishop Field's College. Mr. Parnell was graduated from King's University, Windsor, N. S., in 1923 with the degree of B.A., and entered New Jersey Law School in 1924. While at New Jersey Law School Mr. Parnell besides being a leader in both scholastic and extra-curriculum activities, was elected Class President (1), Captain of the Varsity Debating Team (2), (3), Chairman of the Student Council (3).
